

CASE STUDY

GAS MEMBRANE INSTALLATION, HOUSING PROJECT

Client Name

BELLWAY HOMES SOUTH EAST, TAYLOR WIMPEY WEST LONDON, BARRATT SOUTHERN COUNTIES

Site:

REDHILL, PARK 25, SURREY

Contract start: 01.06.2007

Contract Finish: 21.09.2009

Description of works:

Supply and Installation of RTEC 4 Gas Membrane.
500 Housing Units

With all three House Builders being on the same project, Reeve-Tec Membranes were able to work closely with all three of them. Helping them to control the Gas Membranes Installations and saving on their overall costs.

The Welding of all Joints eliminated the use of jointing tapes to provide a Gas tight seal.

“Quick” and “First Time Right Service”

Problems Reeve-Tec Membranes overcame:

- Dealing with all Three Contractors
- Methane and CO2 Gases
- Being able to keep to a strict Construction Programme
- New Robust details for Dividing Walls
